

Curriculum Aims and Overview

At INSPIRE, we view music as the great connector: bringing cultures and communities together. We have a deep understanding of the power of music and know our shared knowledge of music is crucial in understanding our origins and our place in the world. Music is embedded in our school culture. Music plays a key role in our aims to develop well rounded individuals, global citizens and community champions. All children have access to a progressive curriculum that builds skills, knowledge, fluency and capability. Every child at INSPIRE is a performer, creator and composer of music with all children provided with the opportunity to play an instrument from Early Years through to Key Stage 2.

Through our curriculum, we aim to provide a culturally rich, diverse and inclusive method of teaching to encourage children to be open minded listeners who approach music with tolerance and have a wide breadth of knowledge of musical genres from around the world. Our timetabled regular weekly music slots for each year group ensure we offer a balanced curriculum.

Scope and Sequence

Our curriculum starts with a vocal programme which builds on prior learning and leads to a creative composition. The children's skill and understanding of pitch and rhythm become more polished, fluent and complex as we progress through the years. These basic skills are regularly revisited to ensure concepts are embedded.

In Early Years, we provide a clear progressive pathway in musical development for children from the time they start Nursery through to when they enter Year One, with key focus on being imaginative and expressive through pulse, pitch and rhythm. In Key Stage 1, the INSPIRE Music Programme continues with more structured lessons, and children learn to use their voice with confidence and develop vocal accuracy. Children will continue to show understanding of pulse, pitch and rhythm, as well as exploration of tempo and dynamics. In Key Stage 2, the focus turns to instrumental and ensemble skills building on learning from the previous years. Children are encouraged to develop the use of breath control, fine motor movement and pitch recognition. We ensure that the history and culture surrounding these instruments is discussed.

Children are encouraged to express themselves through music, so their voices are heard. We have competent teachers who engage and challenge children. Our teachers are constantly challenging themselves and benefit from specialist training from INSPIRE Music professionals who ensure that every teacher in INSPIRE is a music teacher. Weekly singing assemblies are held for each key stage and children are exposed to and perform music from all genres and cultures and in different languages, helping them to be educated citizens aware of the best of each respective genre and adding to their cultural capital. Peripatetic teachers from the Wakefield Music Service offer group lessons in with concerts held in July to showcase progress over the year.

There are four core pillars underpinning the discipline of music:

- 1. Musical enquiry exposes pupils to key questions and gives them the opportunity to ask their own questions.
- 2. Musical enquiry relies on pupils acquiring sufficient technical knowledge.
- 3. Alongside this knowledge, pupils are given the opportunity to develop disciplinary knowledge.
- 4. Finally, pupils learn to communicate musical understanding in a sequenced, coherent manner through the means of technical, constructive and expressive means.

Identifying and combining these core pillars work towards the overall goal of music education – inspiring pupils with a curiosity and fascination about the world of music and securing a 'musical understanding'. They should not be understood as silos. Robust, direct and incremental teaching underpins a good music education.

Substantive and Disciplinary Content in Music

Substantive and disciplinary knowledge in music Substantive knowledge in music is based on the developing knowledge of the nine interrelated dimensions of music. All musical learning is built around the interrelated dimensions of music.

Interrelated Dimensions of Music

1. Pulse 2. Rhythm 3. Pitch 4. Tempo 5. Dynamics 6. Timbre 7. Texture 8. Structure 9. Notation

Substantive knowledge focuses on developing children's skills and knowledge required for them to develop as musicians. This is achieved through deliberate practice and allows children to develop and demonstrate fluency of knowledge. It involves learning about music across a range of historical periods, genres, styles and traditions, including the works of the great composers and musicians. Disciplinary knowledge in music is the interpretation on the interrelated dimensions of music and how this knowledge is used when singing, playing instruments, improvising and composing, to develop creative and original pieces and performances. Children work independently and collaboratively to interpret and combine the dimensions of music to create a specific and desired effect.

Every subject is unique and includes its own substantive content and disciplinary content. The INSPIRE curriculum is designed to ensure that pupils not only have broad and strong substantive knowledge but also understanding of the discipline of music. Pupils learn both musical 'facts' and how to make sense of them simultaneously. When pupils learn music, they tackle these two closely linked types of content, each dependent on the other with each playing a vital part in securing scope, coherence, rigour and sequencing.

Substantive Knowledge

Pupils' knowledge of what we often call substantive concepts such as **pitch, texture, tempo, structure, timbre, dynamics** and **duration** come up time and time again in the music curriculum. We know if pupils are able to build up knowledge of these concepts, building richer and richer schemata of these concepts and terms over time, it can help them access increasingly complex material throughout the curriculum, which helps them to learn, understand and remember more – meaning they make more progress.

Disciplinary Knowledge

Learning music involves the development of both substantive knowledge (the 'stuff' of music) and familiarity with the 'second-order' or procedural disciplinary concepts, that shape the way in which the 'stuff' or 'substance' is understood, organised and debated, as well as the ways in which it is actually generated. We want pupils to develop within the discipline of music – so pupils need to know how we arrived at the established piece of music. How did we get there? How is the piece of music justified? How is the tempo of a piece of music influential? They need to know the grammar of music.

The simplest way to think about the difference is – the substantive knowledge is the 'what' and the disciplinary knowledge is the 'how'.

As we're teaching we need to interweave the **what** and the **how** for our children. Thinking musically is vital. Simply 'knowing' the name of an artists or composer, or the instrument played, in itself, musical thinking. The best we could say is that it *enables* musical thinking. We need facts in order to think, but we also need concepts to enable us to group bits of information, or facts, together.

Core Concepts

	BIG IDEAS – SUI	BSTANTIVE CONCEPTS

C, D, E

N/A

C, D, E, F, G

Recognise the difference between the speed of a steady beat, a fast beat and a slow beat.

Dynamics

Talk about loud sounds and quiet sounds and give some examples.

Timbre

Identify different sounds in the environment, indoors and outside. Identify the sounds of the instruments played in school. Identify some of the sounds of the instruments heard when listening to music.

Texture

Sing together. Listen out for combinations of instruments together.

Structure

Add movement to key sections of a song. Understand when to sing in a verse and a chorus.

Down By The Bay	N/A		N/A	N/A	

Tempo

Rehearse the difference between the speed of a steady beat, a fast beat and a slow beat.

Change the speed of a steady beat, moving from fast to slow, slow to fast.

Understand that the speed of the beat can change, creating a faster or slower pace.

Dynamics

Identigy loud and quiet sections of music, and discuss what makes the music loud and quiet.
Understand the meaning of loud and quiet (forte and piano).

Timbre

Know the difference between a speaking voice and a singing voice.

Identify friends from the sound of their voice.

Texture

Understand that singing and playing together creates a musical texture.

Add body percussion accompaniments.

Structure

Join in with a repeated section of a song: the chorus, the response.

Join in with the main tune when it is repeated.

- Pentatonic scale

Tempo

Recognise the difference between the speed of a steady beat, a fast beat and a slow beat.
Change the speed of a steady beat, moving from fast to slow, slow to fast.
Control the speed of a steady beat, getting faster and getting slower.

Dynamics

Listen out and respond to forte (loud) sections of music.

Identify instruments playing loud dynamics when listening to the music.

Use dynamics to communicate the meaning of a song.

Timbre

Choose particular instruments for rehearsal and performing.

Identify the sound of different tuned and untuned percussion instruments.

Texture

Understand that singing and playing together creates a musical texture.

Add body percussion accompaniments.
Listen to the accompaniment to a song.
Identify large numbers of people playing and singing.

Listen out for solo players.

Structure

Show the different sections of a song structure or piece of music through actions.

The Octopus Slide	N/A				N/A		N/A		
Connect	N/A				N/A		N/A		

Direct the class in controlling the speed of a steady beat in a class performance.

Dynamics

Identify gradation of dynamics and use the correct vocabulary to describe crescendo and diminuendo.

Timbre

Explain tone colour: the instruments or voices heard that can be recognised by their unique qualities.

Recognise the following groups of instruments: a marching band and a symphony orchestra and its separate families: woodwind, brass, percussion

and strings.

Musicianship: Improvise Together - Activity 3

Identify the following instruments by ear and through a range of media: banjo, acoustic guitar, tuned and untuned percussion, steel pans, clarinet, trombone, trumpet, piano, keyboard, bass drums, tuba, piccolo, bass guitar,

synthesizer and electric guitar.

Recognise the difference between the sound of male and female voices. Understand the importance of the vocal warm-up and its impact on the tone of the voice.

Texture

Identify and explain texture: the number of voices or instruments playing and the richness of the sound they create.

Identify male and female solo voices and backing vocals, and talk about the different textures they create in the

music.

Understand and demonstrate the effect that repeated rhythmic or melodic patterns (as riffs/ostinati) have on the texture of a piece of music.

Explain the term 'unison' and the difference between unison and solo.

Structure

Identify and explain the following structural terms: verse, chorus, bridge, repeat signs, chorus and final chorus,

improvisation, call and response, and AB form within musical structures. Identify the instrumental break and its purpose in a song.

Recognise phrases and repeated sections.

Discuss the purpose of a bridge section.

connect us

environment?

with the

Control the speed of a steady beat, getting faster and getting slower. Direct the class in controlling the speed of a steady beat in a class performance.

Recognise the connection between tempi and musical styles.

Dynamics

dentify dynamics and how they change the mood and feel of the music: forte, piano, mezzo forte, mezzo piano, crescendo and diminuendo.

Timbre

Recognise the following ensembles:

- Gospel choir and soloist
- Rock band
- Symphony orchestra
- A Cappella group

Identify the following instruments by ear and through a range of media: drum kit, electric guitar, electric bass guitar, acoustic guitar, keyboard or Hammond organ, synthesizer, saxophone, trumpet, harmonica, banjo, accordion, tuned and untuned percussion, steel pans and instruments of the orchestra such as clarinet, tuba, violin, trombone and flute. Recognise the difference between the sound of male and female voices. Recognise tone colour and rapping.

Texture

C.D.E C.D.E.F.G N/A

Identify solos and instrumental breaks in songs and music.

Talk about solo voices, backing vocals and different vocal textures.

Identify changes in texture.

Talk about the different textures created by intervals and chords.

Structure

Identify and explain the structural terms: verse, chorus, bridge, repeat signs, chorus and final chorus, improvisation, call and response, and AB form within musical structures.

Identify the instrumental break and its purpose in a song.

Recognise phrases and repeated sections.

Discuss the purpose of a bridge section.

Identify the tonal centres of:

A minor

G major

D major

D minor

F major

Identify and demonstrate the following scales by ear and from notation:

Major scale

Minor scale

Pentatonic scale

Blues scale

Tempo

Recognise the difference between the speed of a steady beat, a fast beat and a slow beat.

Change the speed of a steady beat, moving from fast to slow, slow to fast.

Control the speed of a steady beat, getting faster and getting slower. Direct the class in controlling the speed of a steady beat in a class performance.

Recognise the connection between tempi and musical styles. Recognise an effective use of tempo at the end of a song.

Dynamics

Identify how dynamics change the mood and feel of music using vocabulary: forte, piano, mezzo forte, mezzo piano, crescendo and diminuendo.

Identify how dynamics can support the structure of a song or piece of music, eg diminuendo leading into a new section and change of mood. Identify the connection between dynamics and texture, eg adding more players and/or singers makes the music louder.

Timbre

Recognise the following ensembles:

- Pop group
- A Cappella group
- Gospel choir

Identify instruments that add particular colour to a song or piece of music. the following instruments by ear

and through a range of media:

• Band instruments such as keyboard, electric or Hammond organ, saxophone, trumpet, electric guitar, electric bass guitar, drum kit, vocals, drum machine and

synthesizer.

- Instruments of the orchestra from the strings, woodwind, brass and tuned and untuned percussion families, particularly violin, cello, double bass, flute, clarinet, oboe, saxophone, trumpet, trombone, French horn, tuba, drums (timpani), glockenspiel, xylophone and piano.
- Other instruments such as steel pans, harmonica, banjo and accordion.

exture

Sing and play instruments in different-sized groups.

4	Main Title Theme From Schindler's List	John Williams	Film Music	1993			
5	So Amazing	Joanna Mangona and Chris Taylor	Soul	2020/21			

Identify solos and instrumental breaks in songs and music.	
Talk about solo voices, backing vocals and different vocal textures.	
Refer to repeated rhythmic or melodic patterns as riffs/ostinati.	
Talk about the different textures created by intervals and chords.	
Understand how texture builds throughout a piece as voices are	
layered.	
Structure	
Talk about how musical styles often have the same musical structure, eg	
Folk music: verse and chorus; Rock and Pop music: verse, chorus, bridge	
and instrumental Break.	
Talk about the purpose of musical structures.	
Identify where changes in texture and tonality help emphasize the	
contrasting sections in a song.	
Recognise that changing the tonality at different points within the song	
creates different sections to the structure.	

pOptional units – these can be dropped in by schools in order to facilitate developing expertise in musical instrument playing:
